

RUDRESH NAVALI

navalirudresh4668@gmail.com | +91 9490928820 | RR Nagar, Bangalore - 560098

Profile Summary

Results-driven software developer with 5+ years of experience building scalable, accessible, and high-performance web applications. Proficient in React.js, Redux, and modern JavaScript technologies. Experienced in translating complex business requirements into robust front-end features, collaborating in Agile environments, and enhancing UX through accessibility and design system development. Passionate about delivering impactful user experiences through clean, maintainable code.

Technical Skills

AI & Prompt Engineering: Claude (Anthropic), Prompt Engineering.

Languages: Javascript, Python, HTML, CSS, SCSS/ LESS, C#.

Frameworks & Libraries: React.js, Redux, Redux Saga, Redux Toolkit, NodeJS, ExpressJS.

Databases: MongoDB, MySQL.

Tools & IDEs: Figma, Dynatrace, Git, Jira/Confluence, DataDog, Quantum Metric, Kibana, AppDynamics, VS Code, Visual Studio, Postman, Fiddler, Chrome DevTools, React DevTools, Redux DevTools.

Testing: Jest, React Testing Library.

Web Development: Accessibility, Responsive Design, Performance Optimization, Test Driven Development.

Work Experience

Infosys | Technology Lead

Mar 2021 - present

- Designed and developed modern, component-based front-end features for high-traffic airline and fleet management platforms using React.js and Redux.
- Led feature implementation for booking flows, homepage enhancements, and payment pages to improve UX and performance.
- Built and enhanced a reusable design system for United.com, improving development efficiency and UI consistency across teams.
- Integrated RESTful APIs and optimized state management using Redux Toolkit and Redux Saga.
- Conducted accessibility audits and implemented WCAG-compliant solutions across customer-facing pages.
- Collaborated in cross-functional Agile teams, actively participating in sprint planning, code reviews, and release cycles.
- Wrote unit and integration tests with Jest and React Testing Library, increasing code reliability and coverage.

Projects

United Airlines | United.com – Mexico (Onsite)

Sep 2025 - Mar 2026

Skills: HTML, SCSS, Javascript, React, Redux Toolkit, Git, Github, Jest, Accessibility.

- Led front-end development of React-based web applications during an onsite engagement in Mexico, delivering high-quality, performant UI solutions.
- Built and maintained reusable component libraries using React and Redux Toolkit, ensuring consistency across the application.
- Collaborated with cross-functional teams across time zones to gather requirements and translate them into scalable front-end features.
- Implemented accessibility standards (WCAG) and responsive design practices across all developed modules.
- Participated in Agile sprints, code reviews, and continuous integration workflows to maintain code quality and delivery timelines.

United Airlines | United.com – Homepage | Shopping | Payments

Jan 2022 - present

Skills: HTML, SCSS, Javascript, React, Redux, Redux-Saga, Git, Github, JIRA, CONFLUENCE.

- Implemented new features across homepage, shopping, and payment modules using React and Redux.
- Built responsive components with SCSS and integrated dynamic content using APIs.
- Contributed to performance improvements and code refactoring during React version upgrade from 15 to 17.

- Enhanced accessibility and tested components using Jest.

United Airlines | Advanced Cost Processor

Oct 2022 - Mar 2023

Skills: *HTML, LESS, Javascript, React, Redux, Redux-toolkit, Git, Github, Jest, Accessibility.*

- Developed a tool to manage and customize fleet configurations using React, Redux Toolkit, and LESS.
- Implemented file upload/download functionality for data portability within teams.
- Streamlined UI workflows and improved usability by restructuring core interaction flows.

United Airlines | United.com Design System | ATMOS

Jun 2021 - present

Skills: *HTML, SCSS, Javascript, React, Git, Github, Jest, Accessibility, Figma.*

- Built reusable React components adhering to design tokens, accessibility standards, and performance best practices.
- Integrated Figma designs and collaborated with UX designers to deliver pixel-perfect components.
- Facilitated adoption across product teams and reduced development time for UI consistency.

Education

Bachelor of Engineering in Computer Science

2016 - 2020

Visvesvaraya Technological University

Certifications & Awards

2021 - 2024

- INSTA Award from Infosys
- Appreciation on Outstanding Contribution from Infosys | United Airlines
- Meta Front-end Developer from Coursera
- Devops on AWS from Coursera

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief. I bear the responsibility for the correctness of the mentioned particulars.
